A successful trip to Jordan

We are very delighted to travel to countries outside the Gulf even during this difficult and struggling situation.

In September, we prepared a business trip to Jordania. The country is currently developing so it is important to follow the contacts.

In Jordania we had the chance to visit the choked with traffic capital city - Ammam for 5 days, where we arranged meetings with counterparts for several of our Clients. Our contacts are very open to having face-to-face meetings and willing to discuss with us about orders, ways of developments and cooperation opportunities.
